

# MRA DAV PUBLIC SCHOOL

Date: July 4, 2019

Dear parents

Greetings for the day!

Instructions for child's benefit:

1. With unpredictable weather conditions, kindly send an umbrella/ raincoat with your child everyday (at least for next 3 months).
2. It has been observed that students' socks/ shoes get wet while reaching the classrooms on a rainy day. Students should preferably carry a pair of clean socks in their bags so that the same can be worn, if required.
3. All students should carry their own water bottles to school. The same can be refilled in school.
4. Refrain from giving money to your child when he/ she comes to school. No child should be seen purchasing eatables outside the school at dispersal time.

Schools work in harmony only when there is a perfect partnership between all the stakeholders. Parents can come to the school to meet the Principal and share their concern areas on any working day during school hours. Only those suggestions which are in the interest of all the students shall be entertained.

We expect parents to shoulder the responsibility with school rather than hampering the school's progress.

Let us all understand our duties as an important stakeholder of MRA DAV Public School Solan & be role models for our children so that we can contribute towards the society by educating our children to be good human beings.

Regards

Masooma Singha

Principal
